Language

Cebuano

English

About me

Senior Software Engineer and Full Stack Developer specializing in scalable applications across Full Stack Development, Agentic AI Systems, and Web3 solutions, leveraging cloud, AI automation, and DevOps for efficient delivery.

Experience

Senior Software Engineer | Co-Founder

Sep 2023 - Present

Blockspace Corporation (Cebu, Central Visayas, Philippines)

Led a team of developers in maintaining, improving, and enhancing Xode Blockchain and Xterium projects. Planned and assigned development tasks, implemented system updates, and improved platform stability and performance. Performed code reviews to ensure quality, resolved technical issues, and guided team members in delivering client-ready solutions. Improved system workflows, optimized processes, and enhanced platform functionality to meet business requirements and user needs.

Senior Software Engineering Manager

Aug 2024 - Nov 2025 · 1 yr 4 mos

4Nexgen Enterprises (Mandaue, Central Visayas, Philippines)

Managed a team of developers to initiate and develop Xterium, a blockchain wallet platform. Planned project tasks, monitored progress, and ensured timely delivery of functional mobile, web, and browser applications. Maintained and improved Xode Blockchain during the development of new projects. Collaborated with team members to implement features, fix issues, and maintain high-quality standards throughout the development lifecycle.

Senior Software Engineer

Sep 2023 - Jul 2024 · 11 mos

Blockspace Corporation (Mandaue, Central Visayas, Philippines)

Led the development of JINA, an AI-driven virtual assistant platform, creating advanced chatbot solutions and business automation tools. Participated as a developer in the initial version of Xode Blockchain, implementing secure and scalable Web3 functionalities. Planned and implemented new features, optimized system performance, and tested software to ensure smooth operation for end users.

Software Engineer / IT Business Analyst

Feb 2023 - Aug 2023 · 7 mos

HUMEDIT Co., Ltd (Chiyoda, Tokyo, Japan)

Maintained and supported multiple projects including NIPT, dermatology reservation systems, and invoicing platforms. Worked with Japanese and Philippine teams to gather requirements, resolve technical challenges, and implement system improvements. Developed enhancements to improve workflows, performed debugging, and ensured projects were delivered accurately and on time.

Software Engineering Team Lead

Jun 2021 - Jan 2023 · 1 yr 8 mos

Human Incubator Inc. (Cebu, Central Visayas, Philippines)

Led the development of a dermatology reservation app ("Beauty System") for patients to book appointments, track treatments, manage billing, and monitor staff calendars. Designed and implemented an invoicing application for patient management and financial tracking. Assigned development tasks, ensured code quality, and delivered projects that improved operational efficiency, patient management, and user satisfaction.

Software Engineer

Jan 2019 - Jun 2021 · 2 yrs 6 mos

Liteclerk Corporation (Cebu, Central Visayas, Philippines)

Developed Liteclerk Cloud Accounting System and Liteclerk POS, delivering scalable cloud-based accounting and point-of-sale solutions for businesses. Implemented new features, improved reporting and financial management, and maintained system reliability. Worked with team members to integrate functionalities, resolve issues, and provide client support, enhancing overall system performance and usability.

Software Developer

Apr 2016 - Jan 2019 · 2 yrs 10 mos

Innosoft Solutions Services Inc. (Cebu, Central Visayas, Philippines)

Built and maintained the Innosoft website and CRM system to manage leads, deliveries, and client support. Developed features to log sales activities, track client concerns, and monitor account executive performance. Streamlined workflows and automated processes to improve efficiency and client satisfaction, ensuring reliable operations for the organization.
